## Summary

---

With 4 years of experience in the computer software industry, I specialize in front-end development with a strong emphasis on React and Next.js. Throughout my career, I've built scalable, high-performance software solutions that focus on client needs and deliver seamless, engaging user experiences

## Skills

---

Javascript, REST, Html5, GIT, JIRA, Software development, Typescript, CSS, TailwindCSS, React, NextJs, Hono, Node, Cloudflare, Neovim, Firebase, vercel, Docker, Express.js

## Experience

---

**Kitabisa.com | ID, Jakarta**

**Web Engineer | 04/2022 - Present**

- Optimized scalable Progressive Web Apps (PWA) that handle over 300,000 active monthly users with 99.9% uptime while helping Kitabisa achieve its mission of empowering charitable campaigns in high traffic places.
- Designed and optimized dashboards and public facing interfaces, resulting in 40% improvement in load times and 15% increase in user satisfaction scores.
- Implemented E-KYC + facial recognition from Verihub, resulting in user verification time decrease to < 1 min from 1+ days manual verification.
- Improved designs of insurance disbursement dashboard UI, processed errors decreased by 30% and time taken to submit a request was reduced by 50% because of efficient workflows.
- Completed monorepo migration for services OTP, there was improvement of 70% in code reuse and 40% in deployment productivity.

**Telkom University | ID, Bandung**

**Angular Developer | 03/2021 - 04/2022**

- Initiated the International Office Telkom University App, a student permit management application for over 10,000 users, which made processing permits 40% more efficient through manual workflows automation.
- Worked with UI/UX designers and backend as well to create a functional and easy-to-use dashboard that integrated with existing systems, achieving 95% adoption rate within three months of launch.
- Helped in building DigiTrain, an internal certification management application for more than 5000 employees and students which centralized training records and streamlined administration processes, saving up to 25% of the time.

## Education

---

**Telkom University | Bandung, ID**

**Informatics Engineering | 08/2020**

- Graduated with 3.38+ GPA.

## Awards

---

Semifinalist in the Meta x Hactiv8 Hackathon., Winner of the ICP Hackathon (Codefest.ID Series 10) - WEB3.
